# OUR STORY

# YOUR FLOOR

OUR STORY

Our 25 years of making quality  
hardwood floors helps you create  
spaces that feel special

We've been making wood floors for 25 years and in that time we've learnt a lot about how to make great wood floors. We make floors for people who want to create beautiful homes; people who love and appreciate unique, clever interior design. We've used our knowledge and experience to offer the best choice and quality.

You will always be able to find cheaper alternatives, but when

compared like for like, we believe Ted Todd floors are unrivalled in quality and value for money, outlasting most man-made alternatives in the market.

When you buy a Ted Todd floor you can rest assured it is responsibly sourced with the majority of our wood FSC® certified. We challenge you not to fall in love with each and every one.

# CHOOSE

# YOUR FLOOR

CHOOSE YOUR FLOOR

---

Wiston  
Classic Collection

With so much choice, it's not easy working out which floor will work best in your space. To help you out, we've created this quick-read guide to finding the right floor for your home.

1

Think of the size and shape of your room first. For example herringbone works particularly well in open plan spaces and hallways that open out into other rooms, as it doesn't draw your eye in any particular direction.

4

A wood floor is more than just a surface covering. It delivers pattern, texture and personality in a room. Consider using wood not just on floors, but walls and even ceilings to deliver the look and feel you're after.

2

If you are looking at planks, think about which width will suit your space. Wider boards work well in larger rooms, conversely try not to use really wide boards in small spaces as they won't fit the proportions of the room. Narrow planks can work wonders in making a small space feel bigger.

5

Consider the best tone for the room. There are no hard and fast rules about which colour will work best in your space, but always make sure you get a sample of the floor and ensure it sits well with other hard surfaces, paint colours, furnishings and fittings.

3

With the right care, our wood floors will outlast all man-made alternatives. So it's worth investing in the best floor you can afford. Wear layer is a good indicator of quality in engineered boards – the thicker the wear layer, the easier it is to re-sand the floor. Once you've fitted your floor, make sure you use the correct Care System to clean and maintain it. This will not only keep your floor looking as good as when it was first fitted, but also protect the finish.

6

Finally, using an experienced fitter who is familiar with our floors is important. Our floors are natural products and fitting know-how is vital. To ensure the best results, we recommend you buy your floor as part of a supply and fit package from one of our approved partners or showrooms.

## 0 8 — PROJECT

### Versatile, on-trend 15mm European Oak planks

If you've got an eye for on-trend interiors, we challenge you not to fall in love with our Project Collection.

Versatile and oh-so-chic, each floor is a true Ted Todd staple.

## 2 0 — WAREHOUSE

### Undulating textures, 190/220mm wide European Oak planks & herringbone

We've put so much into the design and construction of these floors so if you're looking to layer different tones, patterns and textures in your space, a Warehouse floor is a perfect solution.

## 2 8 — FOUNDATION

### Traditional construction, contemporary 15mm planks

We are on a never-ending quest to create true modern classics and with Foundation, you will not be disappointed.

## 3 8 — CREATE®

### Unique Design System using any combination of 15mm European oak in 10 tones and 4 formats

Each component has been designed to work together, so you can create your own designs using the different formats and tones.

## 5 2 — CLASSIC

**A modern take on our original solid floors.**

**Sturdy 20mm 2-ply engineered planks**

Our Classic Collection is a modern take on the original Ted Todd solid floorboards – sleek, sturdy wood floors in the English tradition.

## 7 4 — PATTERNS & PANELS

**Statement herringbone, panels & geometric patterns**

Quality runs right through these floors which have been crafted using 100% hardwood. Featuring herringbone, coastal panels and geometric patterns in a choice of European Oak, Morado or Ipe.

## 8 2 — STRADA

**Uncompromisingly practical and durable 20mm**

**European Oak planks and herringbone**

Strada is the pinnacle of hard wearing floors – perfect for demanding environments.

## 9 0 — SIGNATURE SOLIDS

**Simple and traditional**

Available in a wide range of tones - from dark walnut through to pale European Oak - the Collection is designed to suit both modern and traditional interiors.

# PROJECT COLLECTION

VERSATILE, ON-TREND  
15MM EUROPEAN OAK PLANKS

If you've got an eye for on-trend interiors, we challenge you not to fall in love with our Project Collection. Versatile and oh-so-chic, each floor is a true Ted Todd staple.

We regularly update the Collection with tones that complement the latest schemes but also have longevity – in both tone and construction. We're improving the quality of the floors all the time, making sure we put as much into these floors, so you get the most out of them.

Project floors are made with 15mm-thick engineered European oak and have a 3-layer construction and 4mm hardwood wear layer. These are floors that look great, are reassuringly durable and easy to maintain.

# WAREHOUSE COLLECTION

UNDULATING TEXTURES,  
190/220MM WIDE EUROPEAN  
OAK PLANKS & HERRINGBONE

You only have to run your hand over the surface of a Warehouse floor to begin to appreciate the beauty of the undulating texture and open grain pattern.

We've put so much into the design and construction of these floors so if you're looking to layer different tones, patterns and textures in your space, a Warehouse floor is a perfect solution. All floors in the Collection are available in a choice of 7 tones, in 190mm and 220mm wide planks or herringbone.

Warehouse floors are built to stand the test of time with a durable 15mm-20mm thick engineered European oak construction and long lasting hardened oil finish. They are all FSC-certified for the ultimate in environmental credentials.

# CREATE® COLLECTION

UNIQUE DESIGN SYSTEM USING  
ANY COMBINATION OF 15MM  
EUROPEAN OAK IN 10 TONES  
AND 4 FORMATS

We've worked hard to deliver a Collection that makes light work of delivering precise patterns. Each component has been designed to work together, so you can create your own designs using four formats and ten tones.

How you use Create® to design your perfect floor is up to you. For a subtle, understated look use Create® to design borders or change format between rooms. Or combine formats and tones in any combination of your choice for a floor that is unique to you.

There are no limits to your imagination! Create® is made from 100% 15mm engineered European Oak to give superior stability, crucial for precision made patterns.

# CLASSIC COLLECTION

A MODERN TAKE ON  
OUR ORIGINAL SOLID FLOORS.  
STURDY 15/20MM 2-PLY  
ENGINEERED PLANKS

Here at Ted Todd we are always looking for new ways to improve the design and construction of our floors. But we never forget our traditional roots, because, after all, that's where the story started.

Our Classic Collection is a modern take on the original Ted Todd solid floorboards – sleek, sturdy wood floors in the English tradition. Made with 100% hardwood from a diverse choice of species, these floors are engineered for greater stability with European Oak and Birch plywood.

If you're looking for a long life floor with greater durability, these Classic floors will outlast all man-made alternatives, hands down.

# STRADA COLLECTION

UNCOMPROMISINGLY PRACTICAL  
AND DURABLE 20MM EUROPEAN  
OAK PLANKS AND HERRINGBONE

Over the last 25 years, we've perfected the art of making floors that not only look great, but pack a punch in the practicality stakes too. Strada is the pinnacle of hard wearing floors – perfect for demanding environments.

From commercial spaces to homes with children and pets, all Strada floors are multi-coat lacquered for a scratch resistant, easy to maintain finish. Strada comes in a wide range of tones and is crafted using 20mm thick, 2 ply engineered European Oak, with a generous 6mm wear layer.

# SIGNATURE SOLIDS

## SIMPLE AND TRADITIONAL

SIGNATURE SOLIDS

Be transported to a by-gone era - a time when high-quality, traditional floors graced beautiful stately homes. Breathtaking in design and sturdy in construction, our solid wood floors will last for generations.

Available in a wide range of tones - from dark walnut through to pale, European Oak - the Collection is designed to suit both modern and traditional interiors.

Crafted in 20mm European Oak and American Black Walnut, the Collection has a 6-8mm wear layer above the tongue to ensure every floor is infinitely durable and easy to maintain.

INTRODUCING

# WOODWORKS BY TED TODD

Woodworks by Ted Todd celebrates the very best in British craftsmanship. We've been honing our craft for 25 years, learning everything we can about bringing old wood back to life and finding the finest new wood.

We've taken the skills and expertise we've acquired restoring antique floors and applied them to producing exceptional new wood floors – using only the finest quality wood.

All Woodworks floors are handcrafted by our expert team at our Cheshire Headquarters and are made to order. These are the heirloom floors of the future, for you to enjoy now.

Tilloux  
*Aged*

# EDITIONS

From subtle unfinished textures, open grain and exquisite tones, Woodworks' Editions floors are handmade to perfection and stand out from the crowd.

We use 20mm, 2ply engineered sustainably sourced European Oak, Douglas Fir, Larch and American Black Walnut – all with a 6mm wear layer – to make Editions floors. The bleached tones and smoky washed hues accentuate the open grain patterns, creating characterful boards punctuated with natural knots.

# HOW TO BUY

MAKE YOUR FLOOR A REALITY

HOW TO BUY

## 1 EASY TO CHOOSE

Order samples online, visit our Cheshire or London Design Centres or go to your local showroom or retail partner.

## 2 EXPERTLY INSTALLED

Our experienced Ted Todd Partners can supply and fit your floor. Visit the location map on our website to find your closest one.

## 3 SIMPLE TO MAINTAIN

Keep your floor looking as good when it was first installed by using our easy to use Care System. You can buy Ted Todd care products from your local retailer.

# DESIGN

## PLANK

Taking inspiration from traditional floors, our planks range from narrow widths (80mm), to traditional floorboard widths (140mm) and wide planks (180 to 300mm), making this format incredibly versatile. For wider planks, please look to Woodworks by Ted Todd for more inspiration.

**Design tip** — Lay on the diagonal for a contemporary spin or lay in a mixture of widths for a traditional feel.

## CHEVRON

Sometimes confused with herringbone, chevron is angled at 45 or 33 degrees for a strong, statement look. This gives chevron its own very unique appearance as all of the elements line up in a strong pattern.

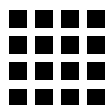

**Design tip** — Chevron floors work best in square or rectangular spaces. Use our Create® tool to lay a plank in between each run of chevron for a stunning, statement look.

## HERRINGBONE

Herringbone, or parquet as it is also known, is increasingly on-trend. Made of individual elements arranged into a variety of designs, herringbone has a strong design impact and works well in all interior styles.

**Design tip** — Choose herringbone for irregularly shaped interiors to make your space flow really well. Mix it up by designing some rooms in plank, and some in herringbone.

## SQUARES

Our squares are an unusual format for a wood floor. Mix with planks, chevron or herringbone in our Create® Collection. Lay on their own for a statement look.

**Design tip** — mix with other Create® elements in small spaces, or mix two tones and lay on the diagonal in your entrance hall.

## CLADDING

Our stunning wood floors don't just look good on the floor. For a statement look, use them on walls, ceilings, doors and furniture. Installation is just as easy as standard floors.

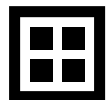

**Design tip** — Mix herringbone on your floors with planks from the same Collection on your walls. For real adventure, look at reclaimed options from our Woodworks by Ted Todd.

## GEOMETRIC

If you are looking to give an elegant and intricate look to your scheme these floors are for you. Geometric patterns create an inspiring focal point to a room, we supply these floors unfinished for you to customise to suit your interior. Find geometric patterned floors in our Patterns & Panels Collection.

**Design tip** — Geometric patterns are a great way to link together odd shaped rooms into one continuous space.

## PANEL

Our panels give you a fresh take on traditional panel designs, perfect for rooms of all shapes and sizes. Super-stylish and brilliantly versatile, panels will transform your interior.

**Design tip** — Choose our Jerdi design to lay in varying directions through different rooms.

## ARCHITECTURAL DETAILS

Please see page 107 for details of all of our accessories.

# FINISH

## HARDENED OIL

Hardened oil is an oil based finish. It has a natural look with a subtle sheen. The outer layer is hardened to give added wear and water resistance making it easy to maintain.

Look after your floor with Care System 1.

## RESTORATION OIL

A truly organic, oiled finish that provides a deep lustre to your floor. The benefit of this finish is that it can easily be restored with Oil Replenish. Oil Replenish is easy to apply and quick to dry.

Look after your floor with Care System 2.

## BURNISHED HARDWAX OIL

This finish is durable, natural and unrivalled. It combines oils which deeply penetrate into the wood's pores with a hardwax that is polished to a deep patina.

Look after your floor with Care System 2.

## NAKED SKIN LACQUER

This clear, soft-feel lacquer maintains the original 'unfinished' look of natural wood, while providing extremely high levels of durability.

Look after your floor with Care System 1.

## MATT LACQUER

Providing maximum durability with minimal maintenance, this oiled-appearance UV lacquer is one of our best-sellers.

Look after your floor with Care System 1.

## SATIN LACQUER

Our traditional, durable lacquer creates a subtle gloss effect without reflective shine.

Look after your floor with Care System 1.

FINISH

## UNFINISHED FLOORS

We supply some of our floors unfinished - so you can decide which finish is best for you. The finish will be applied in-situ. The Care System required will depend on the finish you choose.

# TEXTURE

## SHADOW SAWN

Using innovative techniques, we create saw marks at random across the width of the board for an on-trend look.

## SKIP SAWN

Inspired by the natural wear and tear of wood, we make both shallow and deep saw marks across open areas of the board.

## COASTAL WEATHERED

Replicating a weather-beaten texture, our sand blasted floors have an authentic, reclaimed appearance.

## UNDULATING

By sanding the wood's natural undulations, we work with the grain across the floor for a truly organic feel.

## BRUSHED

To reveal the timber's natural grain, we remove soft summer growth using our clever brushing technique.

## SMOOTH

Carefully sanded to achieve a sleek, uniform look for that contemporary gallery-style finish.

# GRADES

## NATURE

Nature grade is wood that has been selected to show a broad range of natural characteristics, such as knots, sap and colour variation.

## SELECT

Select grade wood presents natural characteristics with some knots and minor colour variation.

## PRIME

Prime grade is wood that has been selected for its clean, uniform appearance with minimal knots, sap and colour variation.

# SPECIFICATION

## ENGINEERED

Our engineered floors are made from layered sections of solid wood. Each layer runs in a different direction to ensure durability and stability, reducing the wood's natural tendency to expand and contract. This makes it the perfect partner for underfloor heating, older homes and rooms below ground level. The top layer of an engineered board is known as the wear layer and ranges from 4mm to 6mm. Wood floors can be sanded and resealed and so the thicker the wear layer, the more often you can do this.

### 2 PLY 15MM

4mm hardwood wear layer  
Bonded to 100% Birch plywood.  
Weight: 10kg/m<sup>2</sup>  
**Warehouse Herringbone, Classic and Foundation Collections**

### 2 PLY 20MM

6mm hardwood wear layer  
bonded to 100% Birch plywood.  
Weight: 14kg/m<sup>2</sup>  
**Classic, Patterns & Panels and Strada Collections**

### 3 PLY 15MM

4mm hardwood wear layer  
Cross bonded to 2 layers of oak.  
Weight: 11kg/m<sup>2</sup>  
**Create® Collection**

### 3 LAYER 15MM

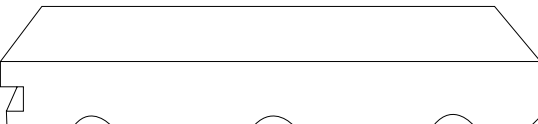

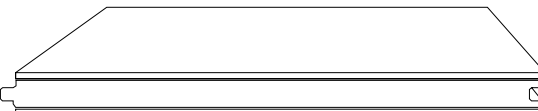

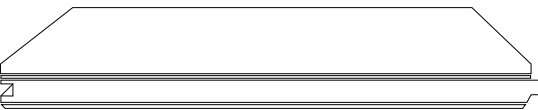

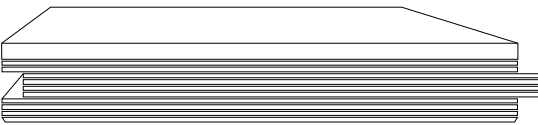

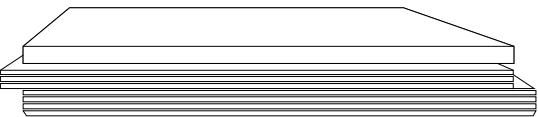

4mm hardwood wear layer  
Bonded to a block board core.  
Weight: 7.5kg/m<sup>2</sup>  
**Project Collection & Warehouse Planks**

## SOLID 20MM

20mm of solid hardwood.  
Weight: 15kg/m<sup>2</sup>  
**Signature Solids Collection**

## SOLID

Solid floors are the more traditional choice and unlike our engineered options they are simply made from a single layer of wood. Due to its single layer construction, solid wood is durable, but because of its natural tendency to expand and contract it is not suitable for use with underfloor heating. Solid wood floors can be sanded and resealed many times because the wear layer above the tongue is 8mm.

# FLOOR CARE

1

## CARE SYSTEM 1

For floors with lacquer, UV oil and hardened oil finishes we have designed a simple system to care for your floor. Clean with Easy Clean, protect with Maintenance Polish and restore with Intensive Polish.

**Care system 1 kit contains:**

1 x 1ltr. Floor Care Easy Clean

1 x 1ltr. Floor Care Polish

1 x maintenance mop head with high quality microfibre mop pad

1 x pack of protective pads

Maintenance instructions included.

2

## CARE SYSTEM 2

For natural oil, hardwax oil and restoration oil finishes we have designed a simple system to care for your floor. Clean with Soft Clean, deep clean with Intensive Clean and restore with Oil Replenish.

**Care system 2 kit contains:**

1 x 1ltr Soft Clean

1 x 1ltr Intensive Clean

1 x maintenance mop head with high quality microfibre mop pad

1 x pack of protective pads

Maintenance instructions included.

You can purchase your cleaning kit at your nearest Ted Todd partner.

# ARCHITECTURAL DETAILS

Wood floors require expansion space at the wall and all vertical obstructions. Mouldings are used to cover the expansion area, to hide cut ends, to adjust height differences or transitions between floors and to aesthetically finish the area.

As well as standard tones, these profiles can be hand finished to match your floor.  
Speak to your nearest partner for more details.

## REDUCER DOOR SECTION

Supplied for 15mm and 20mm thick floors and used to make transitions in thickness from wood floor down to thinner surface, generally through door openings.

## T-DOOR SECTION

Supplied for 15mm and 20mm thick floors, it is used to make the transition at doorways and between interior rooms from one hard surface floor to another at equal heights.

## SKIRTING BOARD

Supplied at 20mm thick, used to create a decorative border around your room, separating your floor from your walls.

## SCOTIA

19mm x 19mm profile, used to cover expansion spaces where skirting is in place and not being removed prior to installation of flooring.

## PIPE FERRULES

16mm internal diameter pipe cover used to conceal expansion space created round radiator pipes.

## BULL NOSING

Supplied in 15mm and 20mm, this profile is used to create a finished edge on a top step, around a stairwell or a sunken living room.

## L-SECTION

Supplied for 15mm and 20mm thick floors, and used to cover expansion spaces in perimeter areas such as brick walls and hearths as well as floor to ceiling glass and sliding doors. May also be used against existing door thresholds.

## STAIR TREAD & RISER SET

Cladding for existing stairs to complement our 20mm floors with an integrated solid oak nosing for an almost seamless appearance. Finished to order to match your floor and trimmed to size during installation.

# VISIT US ACROSS THE UK

## **Ted Todd Showrooms**

We have over 50 Showrooms across the UK where you can browse many of our floors on a large scale. Our Showroom partners can provide you with a full supply and fit package.
