At Karndean we see flooring differently...

We travel the world in our quest to bring you exceptional floors that inspire and delight. From the ancient forests of Europe, to the remote Australian outback and beyond, we seek out expressive and intriguing forms in the natural world to influence our unique floor designs.

By combining these original features with cutting edge design, we create simply beautiful floors that you'll love for a lifetime.

Why Karndean?

All Karndean floors have these benefits...

Durable

Unlike other flooring alternatives, Karndean gives you the look and feel of natural products but with the durability and resilience of luxury vinyl.

Comfortable underfoot

Our products are softer and warmer underfoot than natural wood and stone flooring.

Environmentally friendly

All Karndean floors are 100% recyclable and environmentally friendly.

Lifetime guarantee

Designed to give you peace of mind, every Karndean floor is guaranteed to last for years to come.

Waterproof

Karndean's waterproof floors stand up to spills of all sizes and won't swell, crack or warp when wet.

Pet friendly

From muddy paw prints to household accidents and anything in-between, Karndean's low-maintenance floors are designed with pets in mind.

Hygienic

Unlike carpets, our floors don't hold dust, dirt, pollen or other allergens.

Easy to clean and look after

A sweep and mop with Karndeans Clean is all you need to keep your Karndeans floor looking great.

Child friendly

Karndeans floors offer children a safe and comfortable space to play, and parents a durable, easy-to-clean surface.

Quiet compared to other hard floors

Karndeans is quieter underfoot compared to most hard flooring alternatives.

Compatible with underfloor heating

For added warmth, Karndeans is perfectly suitable for underfloor heating systems up to 27°C.

K-Guard+

We use K-Guard+ surface technology for scuff and stain resistance ensuring there is no need to apply an additional surface treatment following installation.

Realistic wood and stone designs

Inspired by nature, our products are designed in-house and realistically replicate the look and feel of real wood and stone materials.

Resists indentation

All Karndeans floors stand up to the impact of day to day life.

The right look for every room

We know that style is personal and every space is different. To help you find the right floor for your home, see what each of our ranges have to offer:

	Wood	Stone	Thickness	Wear layer	
	✓	✓	3.0mm	0.7mm	Lovingly created to reflect the natural materials that inspired them. These planks and tiles give you timeless craftsmanship at your feet.
	✓	✓	3.0mm	0.7mm	Smooth slender planks and richly textured tiles with a modern twist. Bevelled edges create distinct definition.
		✓	2.5mm	0.55mm	Make a statement with mosaics, metallics or soft contoured pebbles. Unique and character-packed surfaces.
	✓		3.0mm	0.55mm	The authentic and natural character of real timber in a range of natural and weathered looks.
	✓	✓	2.5mm	0.55mm	A selection of minimalistic wood, stone and abstract designs in a neutral colour palette.
	✓	✓	2.0mm	0.3mm	A range of fresh and vibrant contemporary and traditional wood and stone looks.
	✓	✓	Various	Various	Add impact with a wide array of hues, shapes and patterns including cubes, hexagons, chevrons and woven designs.
		✓	2.5mm	0.5mm	Designed to give the opulent look of classic geometric tiles, from striking monochrome designs to beautifully blended traditional patterns.
	✓	✓	4.5mm	0.55mm	A wide range of textured wood and stone designs, with realistic grains and textures. Innovative friction grip backing holds the product in place.
	✓		6.5mm	0.55mm	Contemporary woods featuring a natural texture with matte finish and subtle bevel. Click-locking with built in acoustic underlay.

Inspired by age-old woodlands...

Inspired by traditional French oaks, Blush and Greige Oak have been cleverly designed to accommodate modern bright spaces as well as classic rustic decors. They both offer a neutral backdrop and allow home decorators to accessorise from the ground up.

The original boards were chosen for their subtle, flowery grain and our designers used a natural liming process to intensify this underlying character. The mixed grade of this French oak was highlighted by applying a light brush to emphasise the tonal colour, while retaining the detail and grain pattern. To further develop a design that achieves the ongoing trend towards neutrals, the boards were finished with magenta and beige rejuvenating oils respectively, to provide a contemporary palette of this classic and long-admired wood species.

GLUEDOWN

Inspired by European forests...

■ Natural Prime Oak **VGW115T** - page 91

Inspired by oaks found in many European forests, these pleasingly understated boards were hand selected with the intention of offering a more refined, prime oak product, lending itself perfectly to the modern trend of lifestyle simplification and decluttering. The final application of a matte oil added a natural finish to ensure colour, finish and shade variation were all in harmony. The updated collection delivers a touch of simplicity with three complementary and understated colourways, ranging from warm to cool. Misty Grey, Cool Grey and Natural Prime Oak will be perfect in spaces where you are looking for a timeless interior that never goes out of fashion.

Inspired by
medieval Iberian
architecture...

Inspired by the artistic techniques of traditional Moroccan and medieval Spanish architecture, these tiles feature a non-uniform, patchwork arrangement that incorporates a stylish combination of geometric forms, curves and crests. This creative design is available in two subtle yet striking colourways, offering a modern interpretation of these iconic patterns.

If you are looking for something completely different, look to our Kaleidoscope range. Kaleidoscope by Karndean Designflooring features a wide array of hues, shapes and patterns including cubes, hexagons and woven designs, all carefully crafted by our in-house product designers to offer 3D impact, movement or visual contrast.

Designed to give the opulent look of classic geometric tiles, the Heritage Collection features striking monochrome designs to beautifully blended traditional patterns, the collection reflects both the classic elegance of historic homes and the boldness of contemporary trends. Ideal for recreating the original character of elegant period interiors or for a contemporary statement look, the collection features a tasteful mix of shades that can be used to create a totally individual look.

Karndean in the Kitchen

The kitchen is the hub of the home and without a doubt the room where your floor works hardest. From accidental food and drink spills to the hustle and bustle of rushed mornings, parties and gatherings, your kitchen floor has to put up with a lot. A Karndean floor in your kitchen not only looks great, it's also easy to clean and hygienic.

Zone open plan spaces

Use our matching plank and parquet designs to create different zones within open plan kitchen and living spaces. The use of multiple formats of the same design will subtly create different living spaces, whilst keeping the whole space uniform.

Define island units

Create a feature of kitchen cupboards and island units by framing them with simple design strips or co-ordinating decorative borders.

Karndean in the Living room

A living room is a space with so many different functions. From a quiet, cosy reading space to a place where you can gather with friends to watch the game, your living room needs to be functional, but it also needs to look great and reflect your unique style. A Karndean floor in your living room can help you achieve all this and still make a real statement. Durable yet stylish, let us inspire you...

Add visual interest over a large area

Try laying full size and small planks in a herringbone pattern, or try our Apex design from the Kaleidoscope range, for a traditional twist to modern living areas.

Large space, large planks

To emphasise the feeling of space in living areas, look to our range of large planks featured in sizes up to 1.5 metres.

Create a backdrop for bold colours

Let your bold, bright accessories stand out by creating a subtle backdrop using a cool, neutral floor.

Gluedown's construction

What is Designflooring?

The beauty of Karndean is that you can take any of our products and, with a little imagination, create your own design within minutes.

When deciding which Karndean flooring you want to use, the advice we always give is to make sure you consider what is going to tie everything together and make most of the space. Look at the cabinets, the wallpaper, countertops, furniture and use these different elements to help you to decide which type of flooring is going to look best.

See page 133 for our fold-out guide to **Designflooring Components**.

Wood

Let's look at one of our Knight Tile wood products, **KP94 Pale Limed Oak**

You can simply lay it straight to create a traditional plank floor.

Or try a twist and lay it on a 45 degree diagonal.

Perhaps add a design strip to frame the edges of your room.

Or add a border for that wow factor.

■ Honed Oyster Slate **ST17** with DS12 3mm design strip and Windsor border - page 123

Stone

Using one of our Knight Tile stone products, **ST16 Grey Riven Slate**

Tiles can be laid directly edge-to-edge for a full stone effect.

Or add a design strip for a grout effect. Either in a brick bond pattern.

Or create a herringbone pattern.

Add a border to complete the look.

Take the example of a kitchen installation

The first decision is: **wood or stone?**

If your countertops are wood butcher block, you could opt for a wood design in the same shade or a contrasting shade. However, in this case, as there is a lovely mottled cream and grey granite to work with, we felt that stone was the way to go.

Next we needed to pick our

main floor tile

and for this kitchen we decided on Knight Tile's Portland Stone as it highlighted the robin's egg blue of the cabinets and the grey and black specks in the countertop. Visually, the rectangular shape helps to make the space look wider.

Once the main floor is chosen you can then start the fun part of choosing your

design components.

As this is a stone design, we first considered whether or not we wanted to add a strip. You can go without, however a strip makes more of a statement so we definitely wanted one.

We narrowed it down to three:

DS15 Clay, DS16 Charcoal and DS10 Chalk.

We decided on DS10 as it is smooth with minimal texture and the white gives a clean and minimalistic finish to the floor.

You could lay the floor straight with the strip.

But for this floor we went for a brick laid effect to add more visual interest in the space.

Now this floor could be finished, but...

we weren't quite done yet!

We offer ready made borders that go perfectly with these tiles.

With three borders to choose from, we opted for the Light Mosaic border to keep the space nice and light. It really worked and is the perfect finishing touch to this space.

With Karndean it's not just about laying the floor, but also how you design it.

Just by reading the space and paying attention to detail, it's easy to create a stylish look that is unique to your home.

Full of charm and character, our premium Art Select wood collection brings the natural beauty of real wood to life in your home.

Through meticulous attention to detail and careful selection of some of the most beautiful and inspiring natural woods, our Art Select wood collection includes our most intricate designs and realistic embosses. Each plank is handcrafted to reflect the unique grains, knots and textures of natural wood, but unlike real wood, we're able to design a floor that's not only beautiful and realistic, but is also practical.

Everything that a beautiful wood floor should be, and so much more, each of our Art Select woods tells its own story.

A photograph of a light-colored wooden floor. A light-colored, textured cushion is placed on the floor. In the foreground, there are two open paint cans, one containing white paint and the other containing a reddish-brown color. A paintbrush with a wooden handle and a metal ferrule is resting on the white paint can. Below the paint cans is a ceramic bowl with a reddish-brown patterned interior and a matching lid. The background is a solid red color.

Choosing design components

Decorative borders

We offer a wide variety of border designs in a selection of colours. These designs often feature two colours, one in the same as the main floor you've chosen, which is used in the main pattern, and another contrasting colour, which acts as the background of the design. Some products have multiple borders available, so use the colourful range key and product code listings on the following pages to discover all of your options.

Using design strips to create a border is also a popular way to frame your room. Use three or more strips to create a tramline border or keep it simple by using just one strip as a keyline border. Our brochure has examples throughout of how design strips can be used by themselves or in multiples to add a border around the room.

Don't worry if you can't find a pre-designed border to match your chosen floor; we also offer a custom design service if you would like a design in a colour not shown.

Design strips

Design strips are narrow pieces of luxury vinyl tile which can be put between our planks and tiles. They allow you to finish off the design of your floor with some realistic touches, such as adding a strip to create a grout effect between tiles, or between planks for a ship's decking effect (example on page 93).

Design strips are available in a variety of colours and widths. The wider the strip, or bolder the colour, the more impact it will have and the beauty of our strips versus real grout is that they won't stain or fade and they don't have to be sealed.

The choice of colour is completely up to you. You may want to choose a design strip in a colour that matches the wall tiles in your bathroom, for example, to help tie in elements that are already in your room to your new floor. Alternatively, you could choose a colour which helps the overall look of your floor feel either more contemporary or more traditional, enhancing the design of the product you've chosen.

Design features

We also offer seven pre-designed features that can be combined with the majority of our floors to add a statement centrepiece to any room. See page "Your guide to" on page 134 for details.

We offer a range of design extras to allow you to add your own Designflooring inspiration to your floor. Throughout this brochure you will find examples of ways to use design strips, borders and features, to help create your own unique space.

This fold-out guide allows you to browse the brochure and view available design options at the same time, to help you decide which design strip and/or border will work best for you.

Some of our products are only available with certain design strips. This is because our products come in different thicknesses, so you need a design strip which matches the depth of the product.

The colourful key above each section of the fold-out refers to the product range the strips are available in. To find out if the product you are looking at will work with the design strip, match the colour of the range logo on the product page to the icon next to the design strip.

For more information and guidance about the numerous design options you can add to your space, or our custom design service, please speak to your nearest retailer.

Visit www.karndean.com/far and enter your postcode, or call our team on 01386 820200.

Tips

- Lay planks on a 45 degree angle, or tiles in a diamond formation, to make narrow spaces such as hallways or bathrooms feel wider.
- Choose a contrasting strip colour to make the design of the product stand out.
- For more of a subtle addition, use a design strip in a similar colour to the main floor, but play around with laying patterns, letting design rather than colour become the feature.
- Borders don't have to just go around the edge of a room. Try using them in a large space or hallway to create the effect of a rug, with the border acting as the edge of the rug, or by placing it around a feature in the room, such as a kitchen island.

2: Choose your own colours

We recommend you make the background colour of your chosen feature the same as your floor, then choose remaining colours to coordinate with the finishes in your room.

3: Decide on a size

You can select the size of your feature to fit perfectly into any shape of room. Our features come in a standard 36" size, but can be scaled up or down to suit. Talk to your local retailer who can advise you on getting the right size for your space.

Looking for a bespoke design?

If you're looking for something a little bit different, you can design your own unique feature. Speak to your nearest retailer for help creating a truly custom floor for your home.

Our Kaleidoscope range can help you achieve 3D impact, movement and visual contrast, allowing shapes and patterns to work in both small and large spaces alike. Each geometric floor has been cleverly cut from our authentic wood and stone designs.

Our Style Finder tool is designed to help you narrow down your choices when choosing Karndean Designflooring for your home. Answer a few simple questions, and based on your answers, we will narrow down our products to show you our top picks for your next project.

Moodboards

Our new Moodboards tool allows you to create personal moodboards with links to your favourite products, images and posts to look back on later or share with family and friends.

Floorstyle

Our Floorstyle Floor Designer tool contains our entire catalogue of products. You can select your favourite designs and see them in a variety of typical room settings. Floorstyle also allows you to change angles and laying patterns, add grout effect strips to the design, compare floors side by side, and also share your creations.

See it in your own home

If you'd like to see what your favourite floors look like in your very own home, try our Augmented Reality App. Our clever app allows you to place any selected Karndean flooring in your home so you can see what it would look like in-situ.

Find your local Karndean retailer and create a simply beautiful floor you'll love for a lifetime

We support a network of over 2,000 independent retailers across the UK and Ireland, where you'll receive expert help and support when choosing and installing your dream floor.

If you are looking to purchase online, our Authorised Online Retail Partner is www.flooringsupplies.co.uk

To provide complete peace of mind, Karndean products purchased through these retailers will receive our market-leading lifetime guarantee.

Furthermore, when purchasing a genuine Karndean floor via a recognised retail partner you will also be eligible for our Transferable Purchase Guarantee.

Transferable Purchase Guarantee

All Karndean floors come with a lifetime guarantee giving you peace of mind that it will last for years to come.

If you purchased your Karndean Designflooring through a Karndean Retail Partner your guarantee will have the added benefit of it being transferable. This means that if you sell your house within your guarantee period, you can pass the guarantee on to the new owners.

Cleaning and maintaining your Karndean floor

Karndean Designflooring is hardwearing and easy to look after. Our K-Guard+ surface treatment helps protect against everyday wear, spills and scuffs. This makes it easier to maintain, giving you peace of mind that your Karndean floor will look great for years to come.

We have a dedicated section on the website with videos which explain how best to look after your Karndean floor and covers lots of frequently asked questions from our customers. Visit www.karndean.com/cleaning for more information.

We also have our own Floor Care Kits that can be ordered from your local retailer, or on our website which include everything you need for a simple cleaning routine.

Inside your Floor Care Kit

Regular cleaning with a pH neutral cleaner such as Karndean Clean will help keep your floor at its best.

Over time you may want to treat your floor to some extra care. We recommend every six to twelve months, depending on wear, that you strip and refresh your floor using Karndean Remove and Karndean Refresh, to further enhance its look and durability.
